The report is prepared and disseminated by the Apelbaum Consulting Group Pty Ltd. While every effort has been made to ensure the accuracy of the analyses, the uncertain nature of some transport data is such that the Apelbaum Consulting Group Pty Ltd (ACG) is unable to make any warranties in relation to the information contained herein. The ACG disclaims liability for any loss or damage that may arise as a consequence of any person relying on the information contained in this document.

ACKNOWLEDGEMENTS

This study was commissioned by the Australian Transport Energy Data and Analysis Centre whose stakeholders include the Department for Transport, Energy and Infrastructure; the Department of Innovation, Industry, Science and Research; Bureau of Infrastructure, Transport and Regional Economics; Road and Traffic Authority (NSW); Queensland Transport; the Australasian Railway Association Inc; the Department of Planning and Community Development; the Department of Transport (Victoria); the Federal Chamber of Automotive Industries; and the NSW Ministry of Transport. The Apelbaum Consulting Group Pty Ltd acknowledges the assistance provided by all stakeholders and data providers.

Front cover photographs were sourced from the public domain and vehicle manufacturers.

TERMS FOR THE USE OF ACG REPORTS BY EXTERNAL AGENTS

The user of this Apelbaum Consulting Group Pty Ltd (ACG) report, having received a copy of the report for the purposes of work associated with the project/assignment commissioned by the entity providing the report, agrees that they will:

- return all copies of the report or parts thereof as well as provide the results/analysis to the original purchaser of the report prior to the completion of the project;
 - not keep any copies of the report, parts thereof or the research results for further use or for supply to any other person;
 - use the report or parts thereof in the manner specified in any contract associated with this operation.

SUMMARY OF KEY OUTCOMES	38
SECTION 1 - INTRODUCTION.....	40
1. INTRODUCTION	41
1.1 THE ACCOUNTING FRAMEWORK AND SCOPE	41
1.1.1 The Transport Task	42
1.1.2 Energy Accounting	44
1.1.3 Emissions Accounting	46
1.2 DATA SOURCES	46
1.3 KEY FACTORS INFLUENCING AMENDMENTS TO THE TIME SERIES.....	46
1.3.1 General	47
1.3.2 Air	47
1.3.3 Rail	47
1.3.4 Road.....	47
1.3.5 Pipelines.....	48
1.3.6 Sea	48
1.4 ESTIMATING TRANSPORT EMISSIONS AND FORECASTING TRANSPORT TRENDS	48
1.5 REPORT STRUCTURE.....	50

Table of Contents
